Title III of the Older Americans Act of 1965 as amended and the Social Services Block Grant authorize the Area Agency on Aging to provide an array of support services to older Mississippians 60 years of age and above. The Area Agency on Aging has been designated as the oversight agency to ensure that services are provided based upon the objectives in the area plan. Therefore, providers are needed to perform services for older Mississippians who are in the greatest social and economic need.

Programmatic Requirements:

Transportation services are to be provided to persons who are sixty (60) years and above and who are not residents in a long-term care facility. A Consumer Information Form, indicated as Attachment H to this proposal package, is to be administered by the provider to determine eligibility and to maintain the waiting list.

The geographic areas wherein these transportation services will be provided are the following counties: **Hancock and Stone.**

Transportation service is initiated at a client's location and transported to a designated location.

Transportation services are the traveling of eligible older individuals to and from community resources for the purpose of obtaining needed services or goods.

Transportation shall be provided for the following purposes:

- Medical and/or dental treatment
- Social service and other related agencies/functions
- Personal care needs
- Hospice care
- Foster care/adult day care services
- Other applicable services based on needs

Special Requirements:

Transportation services must be provided in compliance with the Quality Assurance Standards, which is indicated as Attachment B to this proposal package.

Match Requirements:

The percent of non-federal match required on the federal funds that will be used to pay for services is as follows for the source of funds and service indicated:

<u>Sources of Funds</u>	<u>Percent of Match</u>
Title XX-SSBG	25%

This match is to be provided by the proposer. The match may be in the form of cash from local resources (non-federal) such as funds from cities and counties or from funds earned by the proposer. In-kind match may also be used to meet the match requirement. In-kind match is derived from donated expenditures that if the items were not available at any cost, expenses would have to be paid in order to provide the service. For example, if volunteers are available for the homemaker service, the fair labor market value of volunteer time or if building space is donated to house the homemaker staff, the fair rental value of the donated building space can be used as match on the homemaker service funds. A match is not required on client contributions/program income, which is addressed below.

Services must be targeted to low income, minority clients who are in the greatest social and economic need. As clients are referred for services and eligibility is determined, a waiting list must be maintained to ensure that the highest priority client is placed at the top of the waiting list.

Clients cannot be charged for services. However, each client must be afforded an opportunity to contribute to the cost of the service and the amount contributed must be kept confidential. Proposers must include a minimum of 1% of the total budget as program income. Client contributions must be safeguarded in compliance with the Voluntary Contributions Policy, which is indicated as Attachment C to this proposal package. Also, client contributions must be used to expand the service for which the contribution was made and must be expended first, prior to expenditure of federal and/or State or local funds.

Amount of funds allocated to this service for a one-year period:

Title XX-SSBG Federal \$46,000 Match \$15,334 Program Income \$613

Funding for services will depend upon availability of approved Federal and/or State funds.

All expenditures required to provide these services must be indicated in the budget, which is addressed below. The applicable Executive Orders, State regulations, and Federal regulations must be adhered to.
